

BDR3 Request Flow Chart Neuropathology DATA ONLY

Request can be made directly to **Brain Bank** OR via **BDRCC**

If data **IS readily available from MRC database**

BDRCC or **BB(s)** Signposts researcher to MRC database to register as a user <https://brainbanknet.work.cse.bris.ac.uk/>
click on "register here"

If data request **IS NOT** readily available from MRC database
RELATES to a previously approved tissue request

BDRCC signpost to appropriate **BB(s)**
OR if direct to BB(s)
BB(s) arrange for release of data

If data request **IS NOT** readily available from MRC database
DOES NOT relate to a previously approved tissue request
Involves some but not all Brain Banks (i.e., not full cohort)

BDRCC signpost to appropriate **BB(s)**
OR if direct to BB(s)
BB(s) utilises local processes for access (inc. BB committee) and arrange data access agreements for release of data

If data **IS NOT** readily available from MRC database
DOES NOT relate to a previously approved tissue request
Involves ALL BRAIN BANKS (i.e., full cohort)

Request reviewed by BDR Unified Access Committee

Request Approved

Request declined – researcher must revise request

BDRCC issues BDR approval letter to researcher, copy to BB Managers
BBs arrange data access agreements for release of data
